Harvey, W. R. and Slayman, C. L. Coupling as a way of life 1

CHAPTER 1. Uniport, symport and antiport

Wolfersberger, M. G. Uniporters, symporters and antiporters 5

Nelson, N. Energizing porters by proton-motive force 7

Hediger, M. A. Structure, function and evolution of solute transporters in prokaryotes and eukaryotes 15

Christensen, H. N., Albritton, L. M., Kakuda, D. K. and MacLeod, C. L. Gene-product designations for amino acid transporters 51

Gerencser, G. A. and Stevens, B. R. Thermodynamics of symport and antiport catalyzed by cloned or native transporters 59

Martin, F. G. and Harvey, W. R. Ionic circuit analysis of K^+/H^+ antiport and amino acid/K^+ symport energized by a proton-motive force in *Manduca sexta* larval midgut vesicles 77

CHAPTER 2. Uniport

Kakuda, D. K. and MacLeod, C. L. Na^+-independent transport (uniport) of amino acids and glucose in mammalian cells 93

MacLeod, C. L., Finley, K. D. and Kakuda, D. K. y^+-type cationic amino acid transport: expression and regulation of the *mCAT* genes 109

Palacín, M. A new family of proteins (rBAT and 4F2hc) involved in cationic and zwitterionic amino acid transport: a tale of two proteins in search of a transport function 123

CHAPTER 3. Metabolite/ion symport

Slayman, C. L. Metamorphosis of research on ion-coupled metabolite transport 139

Giordana, B. and Parenti, P. Determinants for the activity of the neutral amino acid/K^+ symport in lepidopteran larval midgut 145

Cunningham, K. W. and Fink, G. R. Ca^{2+} transport in *Saccharomyces cerevisiae* 157

Murer, H., Markovich, D. and Biber, J. Renal and small intestinal sodium-dependent symporters of phosphate and sulphate 167

Kaback, H. R., Frillingos, S., Jung, H., Jung, K., Privé, G. G., Ujwal, M. L., Weitzman, C., Wu, J. and Zen, K. The lactose permease meets Frankenstein 183

Wright, E. M., Loo, D. D. F., Panayotova-Heiermann, M., Lostao, M. P., Hirayama, B. H., Mackenzie, B., Boorer, K. and Zampighi, G. 'Active' sugar transport in eukaryotes 197

CHAPTER 4. Neurotransmitter/ion symport

Nelson, N. and Lill, H. Porters and neurotransmitter transporters 213

Uhl, G. R., and Johnson, P. S. Neurotransmitter transporters: three important gene families for neuronal function 229

Kanner, B. I. Sodium-coupled neurotransmitter transport: structure, function and regulation 237

Henry, J.-P., Botton, D., Sagne, C., Isambert, M.-F., Desnos, C., Blanchard, V., Raisman-Vozari, R., Krejci, E., Massoulie, J. and Gasnier, B. Biochemistry and molecular biology of the vesicular monoamine transporter from chromaffin granules 251

Blakely, R. D., De Felice, L. J. and Hartzell, H. C. Molecular physiology of norepinephrine and serotonin transporters 263

Jursky, F., Tamura, S., Tamura, A., Mandiyan, S., Nelson, H. and Nelson, N. Structure, function and brain localization of neurotransmitter transporters 283

Contents

PAGE

Christensen, H. N., Greene, A. A., Kakuda, D. K. and MacLeod, C. L. Special transport and neurological significance of two amino acids in a configuration conventionally designated as D 297

CHAPTER 5. Eukaryotic alkali ion/proton symport

Grinstein, S., and Wieczorek, H. Cation antiports of animal plasma membranes 307

Ahearn, G. A., Zhuang, Z., Duerr, J. and Pennington, V. Role of the invertebrate electrogenic $2Na^+/1H^+$ antiporter in monovalent and divalent cation transport 319

Bianchini, L. and Pouysségur, J. Molecular structure and regulation of vertebrate Na^+/H^+ exchangers 337

Boron, W. F., Waisbren, S. J., Modlin, I. M. and Geibel, J. P. Unique permeability barrier of the apical surface of parietal and chief cells in isolated perfused gastric glands 347

Lepier, A., Azuma, M., Harvey, W. R. and Wieczorek, H. K^+/H^+ antiport in the tobacco hornworm midgut: the K^+-transporting component of the K^+ pump 361

CHAPTER 6. Eukaryotic ion/ion antiport and chloride transport

Reeves, J. P., Condrescu, M., Chernaya, G. and Gardner, J. P. Na^+/Ca^{2+} antiport in the mammalian heart 375

Demaurex, N. and Grinstein, S. Na^+/H^+ antiport: regulation by ATP and role in cell volume regulation 389

Riordan, J. R., Forbush III, B. and Hanrahan, J. W. The molecular basis of chloride transport in shark rectal gland 405

Slayman, C. L., Moussatos, V. V. and Webb, W. W. Endosomal accumulation of pH indicator dyes delivered as acetoxymethyl esters 419

CHAPTER 7. Bacterial and plant antiporters

Maloney, P. C. Bacterial and plant antiporters 439

Padan, E. and Schuldiner, S. Molecular physiology of the Na^+/H^+ antiporter in *Escherichia coli* 443

Krulwich, T. A., Cheng, J. and Guffanti, A. A. The role of monovalent cation/proton antiporters in Na^+-resistance and pH homeostasis in *Bacillus*: an alkaliphile *versus* a neutralophile 457

Maloney, P. C., Yan, R.-T. and Abe, K. Bacterial anion exchange: reductionist and integrative approaches to membrane biology 471

Caspari, T., Will, A., Opekarová, M., Sauer, N. and Tanner, W. Hexose/H^+ symporters in lower and higher plants 483
